

Laura García Diéguez

Senior Product Designer with 6+ years working on B2B and SaaS products. I like working across the whole process, from understanding the problem to staying involved through implementation.

WORK EXPERIENCE

Senior Product Designer / Gumroad (Antiwork)

JAN 2024 - FEB 2026, Freelance | Remote, Async

- For most of this period, I was the **only Product Designer working on Gumroad features** including Checkout, Community, Instant Payouts and new product categories.
- **Redesigned and implemented Gumroad's checkout payment UI** in React and Tailwind.
- Helped bring **Gumroad's Figma and Storybook design systems** back in sync through component work, documentation, and implementation PRs.
- **Led Flexile's UI redesign** and designed complex features across equity, dividends, buybacks, invoicing, and legal documents.
- **Reviewed UI work in open-source contributor PRs** and sometimes implemented frontend changes myself.

Product Designer / Gumroad (Antiwork)

JUL 2021 - OCT 2022, Freelance | Remote, Async

- Worked on a **broad range of features**, contributed to the design system, and made frontend contributions.
- Led the **Checkout redesign** from a single-product purchase page to a full cart experience.

UX-UI Designer / Beezy (now Appspace)

JUN 2020 - AUG 2021, Full-time | Remote

- Built Nectar, **Beezy's design system**, covering foundations, components, and documentation.
- Designed **features for Beezy's Microsoft 365 intranet** and improved how animations and design details were handed over to engineering.

Junior - Associate Product Designer/ Liferay

OCT 2019 - JUN 2020, Full-time | Remote

- Designed and documented components and icons for Lexicon, **Liferay's open-source** enterprise **design system**.
- Worked with research and design-system teammates on a **heuristic evaluation method for Liferay products**.

Primary School Teacher, Foreign Languages
